This survey has been orientated / graphically fitted to the Ordnance Survey (O.S.) digital grid. This is to show the survey in context with its surroundings. Although O.S. Coordinates are shown on this plan the grid is to be treated as arbitrary.

No scale factor has been applied to the survey therefore the coordinates shown are 100% True U.S. Coordinates.

Please refer to Survey Station Coordinate Table above to enable correct establishment of the on-site grid used.

COMMENTS

This plan should only be used for its original purpose. SV Surveying Ltd accepts no responsibility for any party other than the original client.

All dimensions / levels should be checked on site prior to design and construction.

Drainage information (where applicable) has been visually inspected from the surface and therefore should be treated as approximate only.

True information (where applicable) has been surveyed from ground level and therefore should be treated as approximate only.
