

## Measurement Assurance and Certification Scotland

### Performance Standard MACS-WAT-01: Sampling and chemical testing of water

#### Addendum A

---

The following clauses in performance standard MACS-WAT-01 'Sampling and chemical testing of water' (Version 2, August 2017) are not yet relevant to its application:

---

- i. 3.2 c. MACS Performance Standard: Automatic sampling devices, Scottish Environment Protection Agency, MACS-WAT-03, 2018.
  - ii. 3.2 d. MACS Performance Standard: Monitoring of flow, Scottish Environment Protection Agency, MACS-WAT-04, 2018.
  - iii. 6.2.5 Where automatic sampling devices are used, e.g. for composite sampling purposes, then they shall be tested and certified according to the requirements detailed in the supplementary MACS document (ref. 3.2 c).
- 

Until such time that further formal notification is issued by SEPA:

- i, ii and iii above may be ignored.
