Protected areas	
Protected waters	http://www.environment.scotland.gov.uk/get-interactive/map-view/
Protected nature sites	http://www.environment.scotland.gov.uk/get-interactive/data/protected-nature-sites/
Is the site at risk of flooding?	For information on risk of flooding please refer to the Indicative River & Coastal Flood Map and associated information on our website: www.sepa.org.uk/flooding/flood_map.aspx

It should be noted that a suite of land information search tools are available on Scotland's environment web, with the COMAH environmental risk assessment data search potentially of use in the identification of S-P-R linkages.

Requests for more specific information about a SEPA regulated site that is required to assist with decisions relating to statutory determination should be sent to the SEPA team with knowledge of the site or the SEPA contaminated land email as appropriate.
