

2.7 NON-TECHNICAL SUMMARY

2.7.1 Please provide a **non-technical summary** of the information provided in your application (see 'Licence Applicant Guidance' for further information on what should be included). If necessary, please continue on a separate sheet.

The existing properties at Seaview Terrace are served by a public sewer which discharges untreated sewage to Port a'Mhuilinn.

Scottish Water proposes to provide first time sewage treatment through construction of a new septic tank and outfall to serve the properties as per the attached plan.
