

List of Hazardous substances determined in accordance with Schedule 2 of Water Environment (Controlled Activities) (Scotland) Regulations 2005 (as amended).

Note: These substances have been taken from a list of List I substances determined for the EC Groundwater Directive (80/68/EEC). These determinations have undergone external consultation and are final. The list also includes radioactive substances (which did not fall under this Directive). The date of the determination and the consulting body are listed in the 'determined' column. SEPA may amend this list in the future.
