

SMART
Waste

UK Waste Tracking Project

Cindy Lee
SEPA

Prepared with the contribution of the LIFE
financial instrument of the European Union

The UK generates around 200 million tonnes of waste

Key annual facts for UK waste

Over 2.5 million hazardous waste movements

5.5 million businesses record waste transfers under duty of care

420 local authorities report on 32 million tonnes of waste

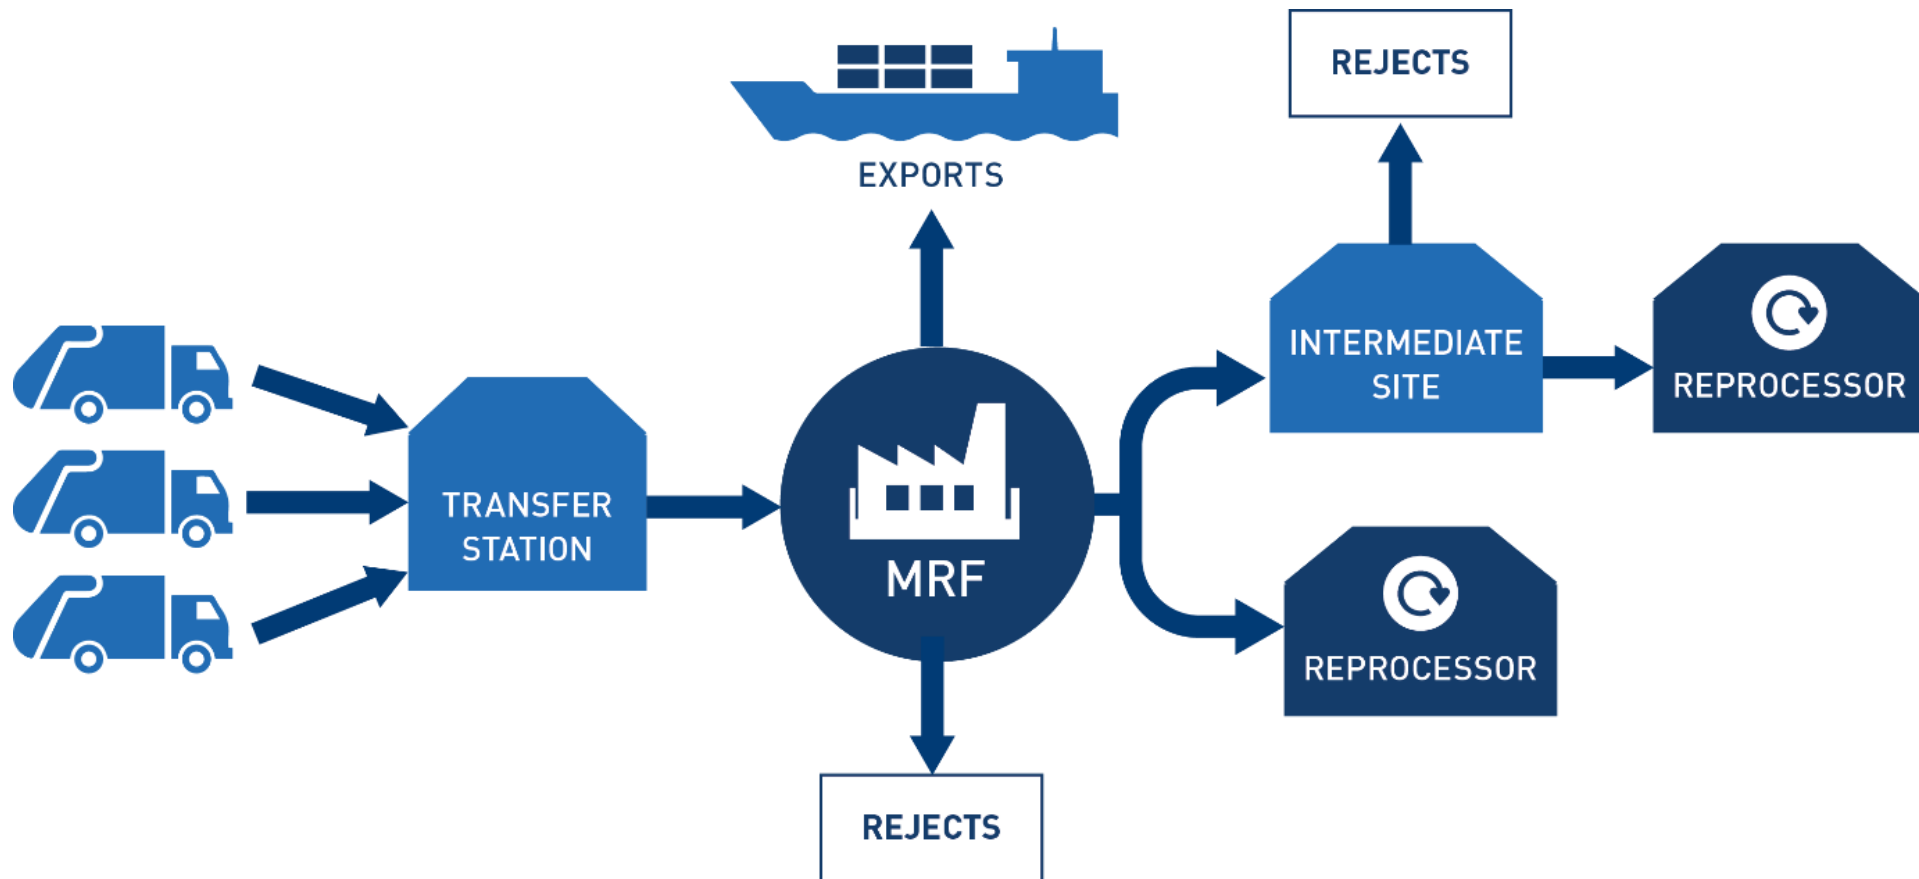

Where we want to be....

Project partners

Tracking through the waste chain

How will waste tracking work?

SMART
Waste

Where are we now?

Developing two prototypes over the next 12 months

Working closely with businesses & regulators so it works for everyone

Looking at changes to legislation to support electronic waste tracking

Find out more

Day 2 Workshop 2: LSW policy recommendations - waste tracking and others
