

Thursday 25th November 2021

Dear community member,

You may have received an update from our neighbouring FNGL site advising they are undertaking essential maintenance from Thursday 25th November until Sunday 28th November.

As our plants share some associated equipment, a very small flare may at times be visible from FEP during this work.

This is completely safe and we are working together to minimise any disruption.

Kind regards

Martin Burrell
Plant Manager
