

# Scottish Landfill Communities Fund Register of Approved Bodies

The Register of Approved Bodies (Alphabetical order) lists all organisations authorised by SEPA to receive and distribute SLCF funds.

Potential Projects can apply to any of the Approved Bodies regardless of location. Projects can apply to any number of Approved Bodies for funding, but can only accept funding for a project or particular phase of a project from one Approved Body. Different Approved Bodies can fund separate phases of the same project.

Approved Bodies must not select projects for funding on the grounds of geography (other than due to the vicinity rule) or SLCF object (i.e. type of project). Bodies that have had their approval revoked cannot accept SLCF contributions, distribute SLCF funds or enrol projects.

We encourage all applicants to make initial contact with a number of Approved Bodies and then make a decision on the Body, or Bodies you will apply to.

## Notes:

**\*\* Contributing Third Party Payment required:** When a Landfill Operator (LO) makes a contribution to an Approved Body (AB), it can only claim tax relief on 90% of the contribution it makes. This means the LO is left with a 10% funding shortfall. Revenue Scotland expect that LOs will absorb this cost, or a portion of it, themselves. Sometimes LOs will require you to find a separate third party - a Contributing Third Party (CTP) to make the 10% payment or a portion of it to reimburse the Landfill Operator and encourage them to continue to make contributions to the Fund.

**\*\*\* Objectives of the SLCF:** All applicants must meet the obligations of the SLCF to receive funding. You can check if your project is eligible by completing our [Eligibility Quiz](#). Some Approved Bodies have additional restrictions, these are detailed in the tables below.
