

**3 April 2022**

Dear Community Member

We wanted to let you know that you may see a very small flame from our elevated flare for a period during daylight hours tomorrow.

This is to help our neighbouring plant conduct inspections required by the regulator on some shared infrastructure.

The process is planned and completely safe, and we will work together to minimise any potential disturbance.

Should you have any questions, please let us know.

Regards

**Martin Burrell**  
**Plant Manager**  
**Fife Ethylene Plant**
